

# Summary Form for Electronic Document Submittal

**Form F**

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Murrieta Creek Multi-Use Trail

Lead Agency: City of Lake Elsinore

Contact Name: Richard J. MacHott, Planning Manager

Email: rmachott@lake-elsinore.org

Phone Number: 951-674-3124 ext. 209

Project Location: Lake Elsinore, Riverside County

*City*

*County*

Project Description (Proposed actions, location, and/or consequences).

The proposed project entails construction of a regional multi-use trail (trail) that would extend in a northwest-southeast alignment between Skylark Drive and Stoneman Street adjacent to, and north of an existing residential neighborhood. At Stoneman Street, the trail would turn to the northeast and continue along the undeveloped road right-of-way for approximately 1,300 feet and then turn to the northwest within the undeveloped road right-of-way of future Como Street for approximately 1,300 feet. From there, the trail would turn to the southwest for approximately 1,000 feet and then approximately 750 feet to the west where it would connect with the existing Levee Trail. The proposed trail would be ten feet wide with two-foot-wide shoulders on each side of the trail. Wood post fencing would be installed on both sides of the trail. Arizona crossings, a span bridge, and a pipe culvert replacement and extension are proposed to cross existing ephemeral drainage features that intercept the trail. In addition, bollards, signage, and trash receptacles are also planned at public access points located at the Levee Trail connection, Stoneman Street, and Skylark Drive.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Biological Resources: MM BIO-1, Temporary Impact Revegetation; MM BIO-2, Pre-construction Burrowing Owl Survey and Avoidance; MM BIO-3, Least Bell's Vireo and Nesting Bird Avoidance; MM BIO-4, Permanent Impact Compensatory Mitigation; MM BIO-5, Fencing and Signage Plans.

Cultural Resources and Tribal Cultural Resources: MM CUL-1, Unanticipated Resources; MM CUL-2, Archaeologist/Cultural Resources Monitoring Program, MM CUL-3, Cultural Resources Disposition; MM CUL-4, Tribal Monitoring; MM CUL-5, Phase IV Report; MM CUL-6, Discovery of Human Remains; MM CUL-7, Non-Disclosure of Reburial Location.

Geology and Soils: MM GEO-1, Paleontological Resources Survey.

Land Use and Planning: MM BIO-1 through MM BIO-4 (see above).

Noise: MM BIO-3 (see above); NOI-1, Construction Management Plan.

Recreation: MM BIO-1 through MM BIO-5; MM CUL-1 through MM CUL-5; MM GEO-1; NOI-1 (see above).

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Not applicable

Provide a list of the responsible or trustee agencies for the project.

Santa Ana Regional Water Quality Control Board, State Water Resources Control Board, South Coast Air Quality Management District, Western Riverside County Regional Conservation Authority, California Department of Fish and Wildlife.
